Clear terminal leaf Cloudy terminal leaf

At each pixel, select the tree using ERA5-Land 2-m air temperature. Conditions along a path are combined with AND; cloudy terminal paths are combined with OR. Red = inverted C13 brightness temperature normalized over 219.65–280.65 K; Green = C02 reflectance normalized over 0–0.78; Blue = C05 reflectance normalized over 0.01–0.59.
